

We are looking for a dedicated and qualified teacher for our state approved bilingual high school. Start September 1, 2025.

Teacher for secondary (m/f/d) with the subject Chemistry (in English)

Who are we and how do we work?

Freie Schule Anne-Sophie Berlin is a state-recognized private school run by the Würth Foundation. It offers a continuous educational path from elementary school to the German Abitur. Instruction is bilingual in German and English from the very beginning. At Freie Schule Anne-Sophie Berlin, English and German teachers work together to create a bilingual culture in the classroom and in interaction with each other.

In addition to bilingualism, the pedagogical concept is characterized by goal-oriented learning in a designed environment and the introduction to independent learning with new media. In learning teams, teaching, learning and social development become a collaborative process. Personal support through coaching sessions is an essential element of the learning culture. The goal is to guide learning partners on their unique path to success.

The school landscape covers a total of 7000 square feet with a yard and 2-field gymnasium on the roof. The lovingly designed facilities are located in Zehlendorfer Welle on Clayallee in the Steglitz-Zehlendorf district.

What we offer

- secure workplace with freedom to help shape and develop a growing school
- small learning groups with often less than 20 students
- modern, inspiring working environment with an enthusiastic, international team, flat hierarchies and an open communication culture

- the school each teacher with a MacBook,
- the school has intranet and internet, extensive WLAN network, digital learning platform and ActivePanels in the classrooms
- additional employer benefits

What we are looking for

- full teaching qualification for Chemistry, preferably a Master's degree
- relevant teaching experience
- fascination for working with learners
- very good knowledge of English and preferably German (confident in written and spoken)
- team-oriented way of working
- enthusiasm and motivation in helping to shape an innovative school

Job description

- age-appropriate preparation, delivery, and follow-up of lessons in grades 7-12, including the use of digital media
- assessing and evaluating performance through individual feedback and grades
- conducting exams (Abitur, MSA)
- individual support of our learning partners in coaching sessions
- regular participation in further education, conferences and meetings
- close cooperation with guardians, faculty and school administration
